

WHAT DO WE OFFER?

- We provide a safe, caring environment with staff and volunteers who come alongside those in need to help them on the journey of recovery.
- We provide a faith-based approach. We encourage exploring one's beliefs, and we share our personal experiences.
- We offer life skill training, job skill training, resources, and equipping to prepare participants for their next stage of recovery.

WHAT WE ARE NOT

- We don't provide housing. "yet"
- We are not a church.
- We are not a medical facility. (Our services may be classified as out-patient)
- We do not provide financial assistance.

Recovery & ReEntry Resources

MISSION: Working Together to
Build Healthier Communities...

**Working with Men & Women of all
ages, races, and backgrounds!**

OUR METHOD

We take a tailored approach to each participant, learning their story and how to best come alongside them. We ask about their goals and dreams and help them craft a plan for working toward those. This will look different for each person and, depending on their goals, we will provide whatever help we can. Sometimes that may be training and equipping; sometimes it may be mentoring or building relationships. It may also include partnering with other services or connecting the participant with other resources in the area. Whatever that looks like, we walk alongside each participant and cheer them on, providing help and support along the way.
